

Accessing Your Accounts on the Go

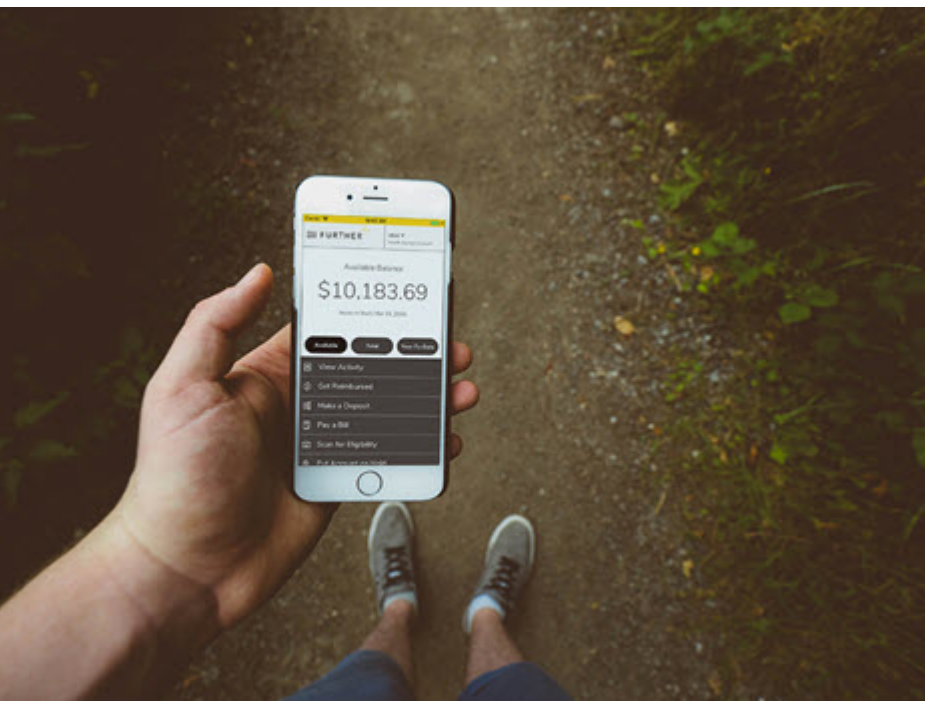

Our mobile app gives you real-time, easy access to your accounts whenever you need it, 24 hours a day, seven days a week.

The Further app provides tools to help simplify your life at every step: from transferring money and submitting receipts, to checking on reimbursements or paying a bill. There's even a tool that lets you scan a product's barcode – while you're shopping – to see if it's a covered expense!

To get started

1. Register online at www.hellofurther.com.
2. Find the free Further app in the Apple app store or Google Play store
3. Install the app on your device.
4. Sign in using the username and password you chose for www.hellofurther.com.
5. Follow the prompts in the app--this includes creating a Personal Identification Number (PIN).

At this point, you will be able to enable fingerprint sign-in for more convenient access to the app.

How to use it

- When you sign in, you'll see an account home screen, where you can check your balance and manage your money for the current account.
- The account you're viewing is displayed in the top right corner of that screen. You can tap that button to switch to other accounts you might have.
- The menu button lets you manage your personal information, add providers (for HSA users only), manage your debit cards, and update your personal bank information.
