

WHS Course Flow Charts

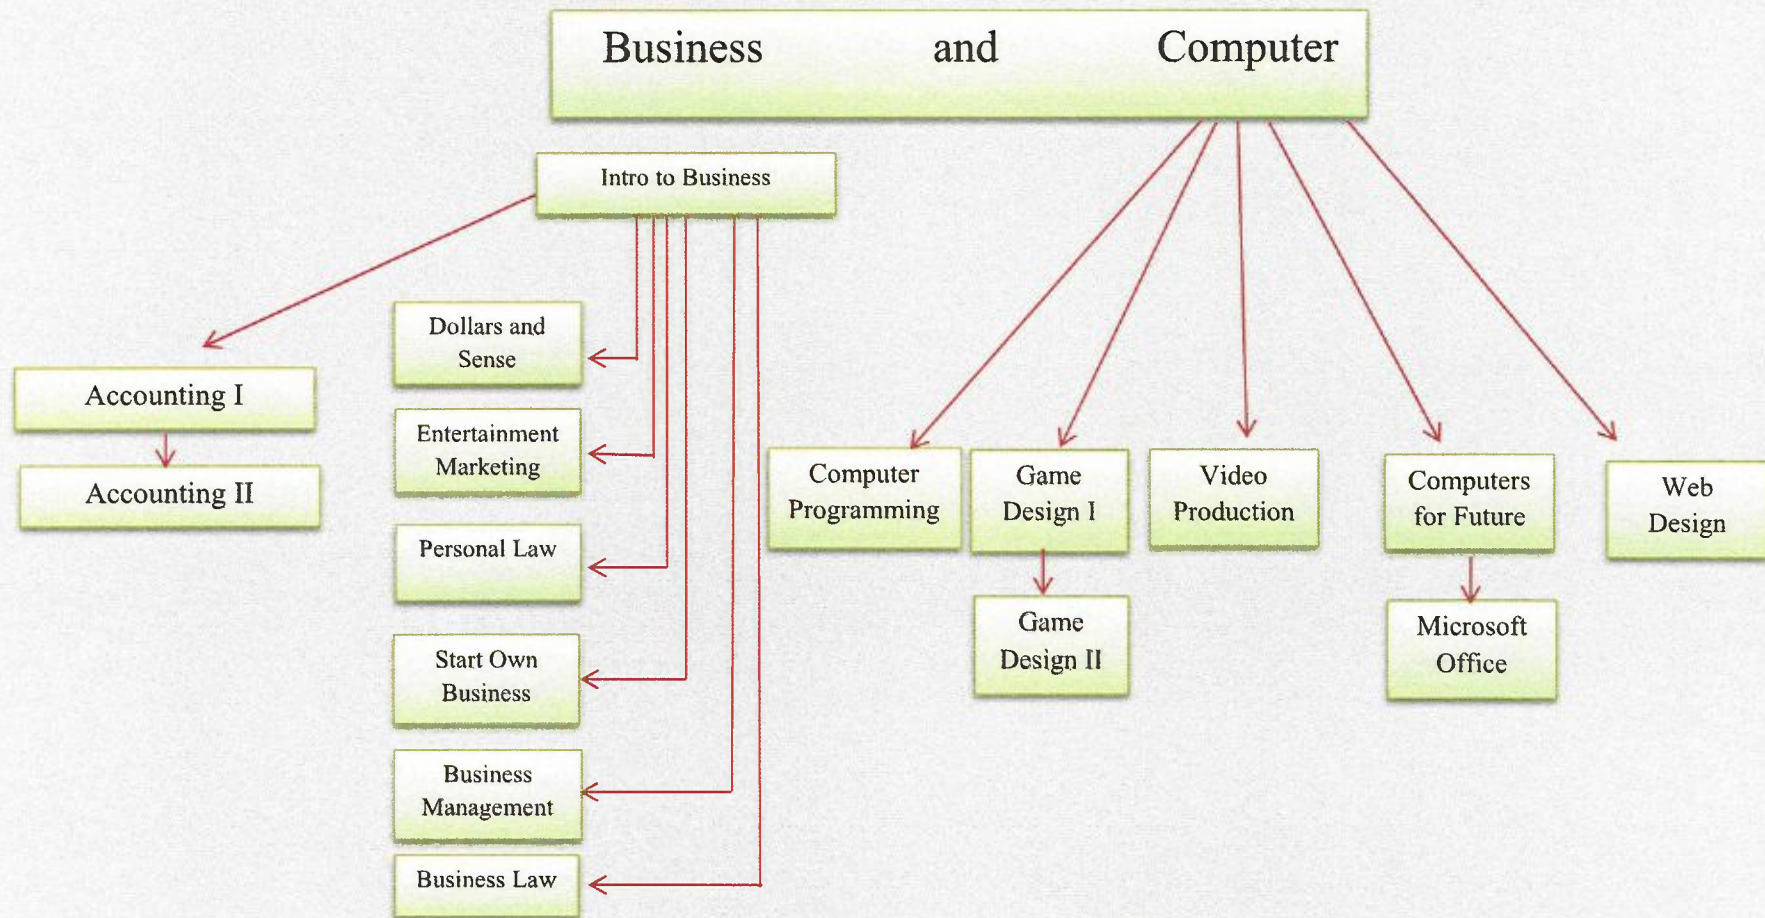

Each department flow chart visually shows the sequence of courses and the relationship one course has to another.

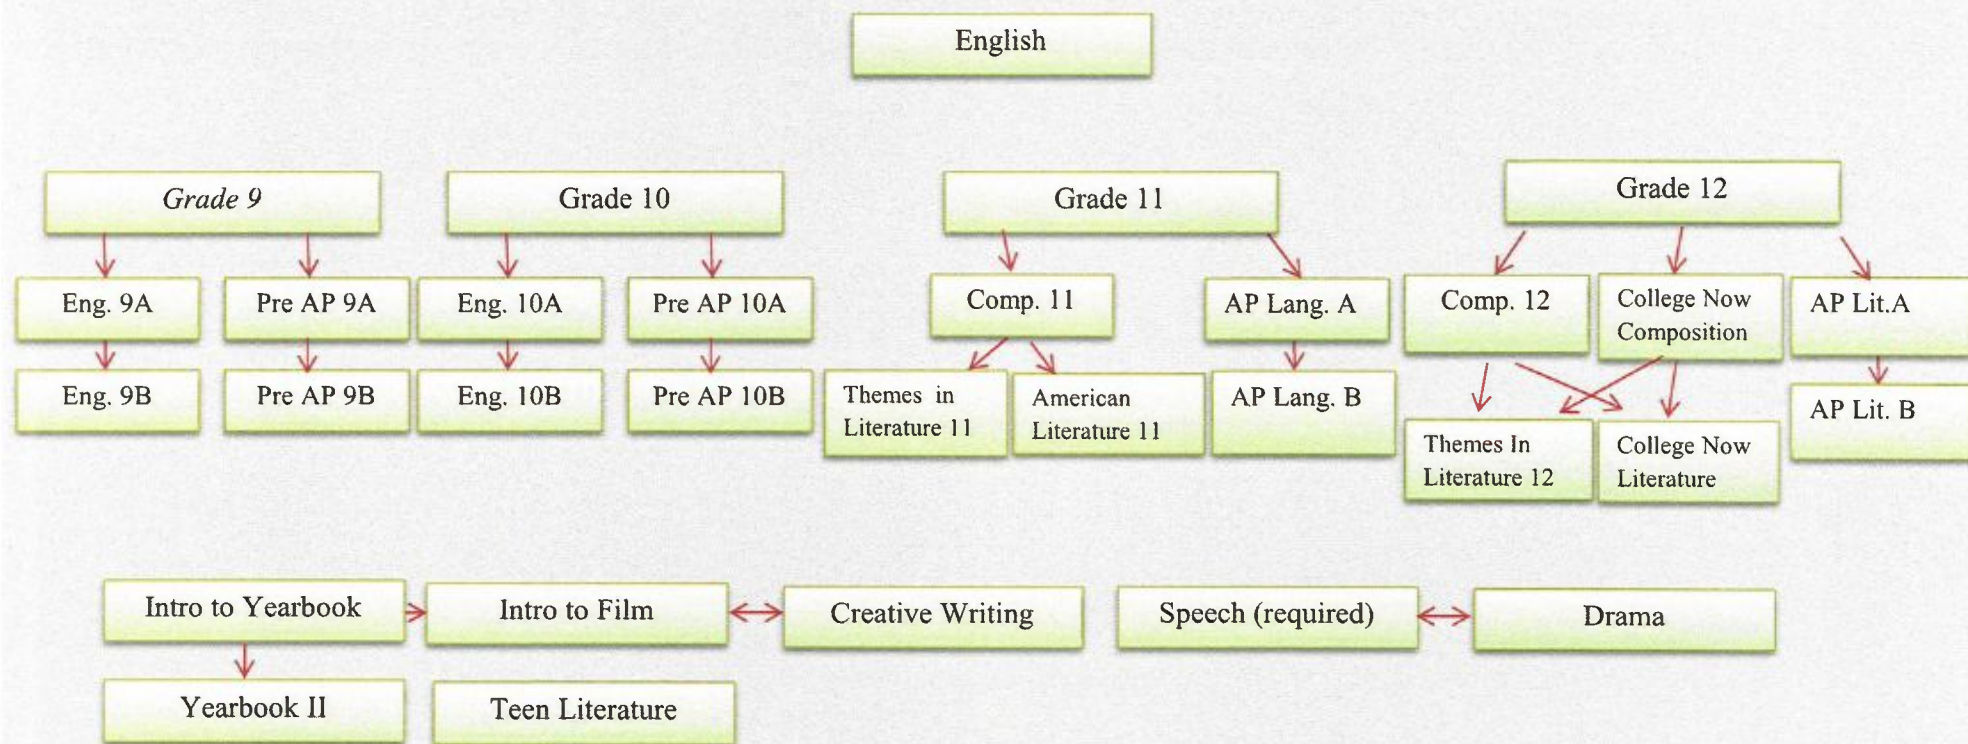

The example below illustrates how the charts are designed:

1. Intro to Art (the first class on the flow chart) is a prerequisite course for all courses in the Art Department.
2. The arrow pointing down to Drawing and Painting indicates that after Intro to Art, Drawing and Painting may be taken after which Studio Art-Painting could follow.
3. The arrow pointing left-to-right between Drawing & Painting and Graphic Design I indicates that students interested in one of the courses may be interested in other.
