

WHAT IF YOU FEEL SICK?

STEP BY STEP SCENARIO

Student feels sick at home.

Notify school building front office to report absence and symptoms.

**STOP
STAY
HOME**

Student feels sick at school.

Teacher contacts school nurse.

Nurse evaluates/assesses student.

Student has symptoms consistent with other medical diagnoses, such as: allergies; asthma; diabetes; etc.

Nurse reviews symptoms to determine if connected to a pre-existing health condition.

Student will receive nursing interventions and/or treatments.

Student's health condition improves, student feels better, and/or it has been determined that symptoms are connected to a pre-existing health condition. Student returns to class.

No improvement of symptoms or student's health condition. Parents will be contacted to pick up student.

Employee feels sick

Contact supervisor

Stay home or go home

Student has symptoms consistent with COVID-19.

Parent will be contacted to pick up child.

Nurse will review MDH exclusionary guidelines with parents and encourage parents to contact medical provider.
