If you are looking for quality child care in a school setting then look no further! Kids' Company offers children the opportunity to thrive in an atmosphere that supports positive growth. Children are given this opportunity starting at the age of three (must be toilet trained) through 5th grade. Kids' Company is open at 6:00am and our last pick-up time is 6:15pm. We are located at Bayview Elementary, Southview Elementary, Laketown Elementary and Waconia Enrichment Center. Children may attend Kids' Company at the school they attend which means a peace of mind for parents. Kids' Company is available on most school release days. Our belief at Kids' Company is that children need to be in an environment that will enhance their social, academic and positive self image. We accomplish these goals through exposure to new experiences, freedom of choice and building new friendships. Children are always placed in age appropriate classes. Please see below for our specific site locations and for more details. Please note that times and locations may change due to registration numbers.

District 110 Early Childhood Family Education

## Welcome to Dist. 110 ECFE

Early Childhood Family Education (ECFE) is a District 110 Community Education program of Waconia Public Schools. All families with children ages birth to kindergarten are welcome. Our mission is to strengthen families through education and support of all parents as their child's first and most important teacher.

ECFE offers classes, special events and other programs designed to give parents information, resources and skills that support their child's growth and development. Most classes meet once a week for 1.5-2 hours at a time. Quality childcare is provided for siblings not enrolled in class.

A sliding fee scale is provided to make classes affordable for all families. No one will be denied participation for inability to pay.

# ECFE 0 - 28 months

**ECFE Registration-COVID-19 Procedures**  
Our winter/spring registration will begin on Nov. 23. Due to COVID-19 we may need to make changes to our offerings based on COVID-19 safety protocols for our school and community. Rest assured we will continue to offer high quality programs that take into account safety measures of health screens for staff and families as well as rigorous cleaning and sanitization. Class sizes have been reduced for safety measures. Register for classes at a \$0 fee and select the recurring fee level from the drop down menu to choose your payment amount. Half of the payment will be processed the first week of class and then the other half processed the first week of March. Please be sure you have an up to date credit card on your account. You will receive a receipt when your card is charged. **Sibling Care** will not be offered due to safety measures, unless the sibling is a young infant and needs to be with the caregiver.

# Early Childhood Screening

## Is your child 3 years old?

The early childhood years are an important time of rapid learning and growth. Early Childhood Screening is a **FREE** service offered by District 110 that will check a child's overall development and health. Children are screened by a licensed early childhood teacher and a school nurse. Results of the screening help identify any learning or health concerns that may require attention before a child enters kindergarten. **In Minnesota all children are required to complete Early Childhood Screening before kindergarten entrance, however, it is not a test for kindergarten.** The preferred age to screen is between the ages of 3 and 4 years old.

### Early Childhood Screening includes:

- \* A look at your child's development
- \* Vision and hearing checks
- \* Height and weight measurements
- \* Immunization and health history review

# Early Childhood Preschool Program

## Welcome to District 110 Waconia Wildcat Preschool

Waconia Community Education connects, empowers, and enriches lives through lifelong learning and service to our community. Early Childhood Education is a core component of Community Education where families and young children begin their relationship with Waconia Schools. We recognize that every student has unique needs. It is our goal to offer the best learning environment for your child. Academic and support specialists collaborate with classroom teachers to deliver classroom instruction. This collaboration is designed to support each child who comes through our door to reach his/her full potential.

Waconia Wildcat Preschool provides innovative classrooms where creativity and imagination flourish. Our inclusive program helps all children discover a joy of learning. Your child will be immersed in a stimulating environment that encourages physical, intellectual, and emotional development through play based investigation, purposeful questioning and exploration for deep learning and a seamless transition to kindergarten.

There are other preschool options available in Waconia, but our preschool is the only preschool that aligns with the Waconia School District curriculum and the overall K-12 system. We work closely with Early Childhood Special Education and kindergarten teachers to foster a successful transition from preschool to kindergarten. Call 952-442-0613 with questions or go to our website for more detailed information about each session.

### Goals of District 110 Preschool

At ISD110, our mission is to allow students to explore their passions and create success. In early childhood we give children a high quality preschool experience in partnership with parents. We strive to educate, collaborate, challenge, empower and support families, nurture development and treat all with respect.

We believe:

- Parents are children's first and most important teachers
- Licensed teachers nurture and provide structure to support young learners and parents
- Research based curriculum embedded with standardized goals will provide learning to ensure kindergarten readiness
- Classroom environments should be carefully designed to support developmentally appropriate exploration for preschool children
- Play opens the world of learning for the preschool child

# Virtual Youth Enrichment

**Virtual Coding Club w/ Tech Tac Toe** - Coding is an invaluable skill in today's world. It can open amazing opportunities and set kids up for success. In this on-line Coding Club with live teachers, kids learn coding skills in a fun and easy way. The program is split up into 5 sessions, which takes kids from basic block programming all the way to tip toe into python, one of the world's most widely used programming languages. Take them back-to-back or skip a session! The next level will always be available. Participants will need basic typing skills, access to a Windows PC, High speed internet and Zoom.

**Program Benefits** - In the current digital age, knowing how to code is just as vital as knowing how to read and write. Coding is a fundamental literacy skill of the 21st century. Best of all, it's a universal one, and that makes the world a smaller and more unified place. While parents and ISDs are interested in fostering these skills, we have observed that many Community Education programs lack a robust on-going coding program. Many programs are one-off, meaning they provide an introduction to a concept but then offer no follow-up classes to build on skills learned. Many programs are also cancelled due to low enrollment, with kids being unable to build on their skills. This on-line program is the ideal solution to those issues. Being online and cross-ISD allows us to run classes at consistent times with little to no interruptions in service. Having this broad reach allows us to build a multi level program that can be consistently taught. Not only are we able to offer a 5 level program, we are able to offer those 5 levels during the same session. This consistent offering allows kids to register for sessions back to back, or take one or more sessions off and then return to the next level when they want to. Our program paves the way for a bright future in the computer. We hope you are as excited about the program as we are and look forward to partnering with you to bring a consistent, high quality coding program to your community.

## Registration Policies

### Register Early

Classes fill up quickly. Please register at least one week in advance so we can make class enrollment decisions. We will accept registrations as long as there is space available in the class.

### Are you registered?

Assume the course will be held at the time and place indicated. Assume that you are enrolled unless you hear differently. We would call you if the class is cancelled or if the dates, times or locations have changed.

### Refunds/Cancellations

Notification to the Community Education office at least 6 working days or more prior to the start of the class/program is necessary to receive a full refund/credit (less a \$10 processing fee). No refunds, transfers or credits will be issued for vacation, illness or injury. Classes are not prorated.

- ECFE - Same as above.
- Kids' Company registration fee is nonrefundable. For more information see the Kids' Company handbook.
- Waconia Wildcat Preschool - The registration deposit and supply fee is non-refundable. Class cancellations need to be received in the Community Education office two weeks prior to withdrawal or participant will be required to pay the difference.
- Behind the Wheel - A \$35 fee is assessed for canceling out of this program.
- COVID-19 cancellations will be assessed on a case to case basis.

### School Closings

If school is canceled or closes during the day due to bad weather, Community Education must cancel all youth activities. Adult activities may or may not be canceled. The CE office will call all adults if classes are to be canceled. Cancellation information will be posted on the Community Education website, [www.waconiacommunityed.org](http://www.waconiacommunityed.org)
